IMECHE JOURNALS COLLECTION

SAGE now publishes 18 prestigious titles from the **Institution of Mechanical Engineers**. These include the 16-part Proceedings of the IMechE, as well as **The Journal of Strain Analysis for Engineering Design** and the **International Journal of Engine Research**.

Spanning from Power and Energy to Sports Engineering and Technology, these journals are an essential part of any engineering collection.

INCLUDED IN THE IMECHE JOURNALS COLLECTION ARE:

Journal Titles

International Journal of Engine Research

ISSN: 2041-3149

The Journal of Strain Analysis for Engineering Design

ISSN: 2041-3130

Proceedings of the Institution of Mechanical Engineers:

Part A: Journal of Power and Energy

ISSN: 0957-6509

Part B: Journal of Engineering Manufacture

ISSN: 0954-4054

Part C: Journal of Mechanical Engineering Science

ISSN: 0954-4062

Part D: Journal of Automobile Engineering

ISSN: 0954-4070

Part E: Journal of Process Mechanical Engineering

ISSN: 0954-4089

Part F: Journal of Rail and Rapid Transit

ISSN: 0954-4097

Part G: Journal of Aerospace Engineering

ISSN: 0954-4100

Part H: Journal of Engineering in Medicine

ISSN: 0954-4119

Part I: Journal of Systems and Control Engineering

ISSN: 0959-6518

Part J: Journal of Engineering Tribology

ISSN: 1350-6501

Part K: Journal of Multi-body Dynamics

ISSN: 1464-4193

Part L: Journal of Materials: Design and Applications

ISSN: 1464-4207

Part M: Journal of Engineering for the Maritime Environment

ISSN: 1475-0902

Part N: Journal of Nanoengineering and Nanosystems

ISSN: 1740-3499

Part O: Journal of Risk and Reliability

ISSN: 1748-006X

Part P: Journal of Sports Engineering and Technology

ISSN: 1754-3371

BENEFITS OF SUBSCRIBING

- **Easy access:** the journals are available online on the award-winning SAGE Journals platform
- **Broad coverage:** consistent year-on-year growth of published content, including approximately 1,500 new articles annually
- **Accessibility:** 17 of the 18 titles are included in the Thomson Reuters Journal Citation Reports®, and all of them are indexed in SCOPUS
- **Timely publication process:** peer-review is fast, efficient, and overseen by our dedicated in house team, so you can be sure you're getting the most recent research as soon as possible
- **Coverage of global topics:** 80% of papers published in the IMechE Collection have come from outside the UK in 2014
- **High impact research:** there have been over 55,000 citations to collection articles

Complete your mechanical engineering content collection. No research can be complete without access to all possible information; owning the IMechE Archive provides comprehensive resources for a full literature review in mechanical engineering.

The **IMEchE Archive: 1847–1998** gives you direct access to over **200,000 pages of unique material**, including technical papers, obituaries, works visits, meeting reports, technical drawings, and editorial comment, all covering some of the most influential and innovative years of engineering development.

Highly relevant content – over 15,000 articles between 1989 and 2014 cited Archive papers

Papers date back to the inception of the Institution of Mechanical Engineers and include **key content from leading engineers**, conferences and the Institution of Locomotive Engineers:

- 'On the fallacies of the rotary engine' – George Stephenson, 1848
- 'The early history of the Whittle jet propulsion gas turbine' – Frank Whittle, 1945
- 'The possibilities of nuclear energy for heat and power production' – John Douglas Cockcroft, 1947

IMEchE Shallow Backfile Package

This content ownership opportunity will complete your collection of IMechE content, offering articles published between 1999 to 2009. The package will include many of benefits of the IMechE Archive, including access via the award-winning SJ platform and the highest quality content that is ranked in the 2013 Journal Citation Reports® (Thomson Reuters 2014). Complete your ownership of IMechE backfile content today!
