

EDUCATORS ASK FOR A BETTER COPYRIGHT

In the proposal for the Directive on Copyright in the Digital Single Market

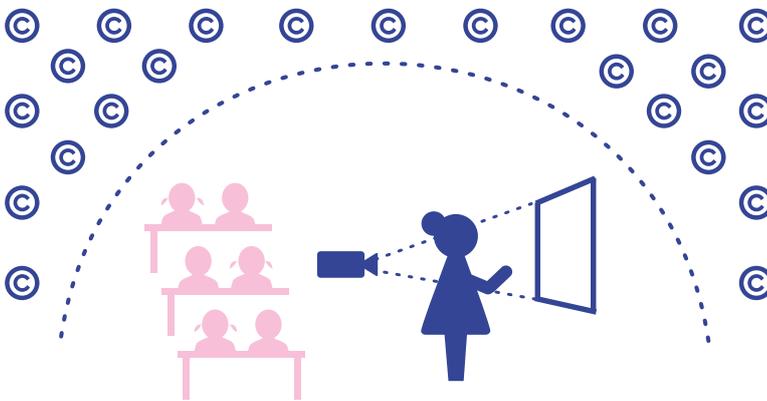

WE ARE:

106 mln students
8.3 mln teachers
40% of adults who continue to learn

KEEP COPYRIGHT OUT OF THE CLASSROOM

A new, mandatory exception for non-commercial educational purposes is needed

Broad range of relevant educational institutions is covered

Permission for diverse uses, both digital and analogue

No override by contracts and licensing schemes

THE PROBLEMS WITH THE PROPOSAL FOR THE DIRECTIVE:

COMPLICATED RULES

UNNECESSARY COPYRIGHT BARRIERS

DIFFICULT TO COLLABORATE ACROSS BORDERS

FINANCIAL BURDEN FOR MANY MEMBER STATES

A LIMITED EXCEPTION INSTEAD OF A MANDATORY ONE

CLOSED-DOOR POLICY

EXCLUDING EXPERTS

REMUNERATION SHOULD NOT BE MANDATORY

The future of education determines the future of society. Please make copyright right for education, right now.
